QUALITY POLICY

CHASE ALLOYS LIMITED specialise in the supply of alloy steel, non ferrous metals and associated machined components to customers requiring small to medium quantities of standard specification material and product, although sufficient stock levels are maintained to supply larger quantities of material when required. The Company reputation has been built on the foundation of material availability and quick response to customer requirements.

CHASE ALLOYS LIMITED is committed to the provision of total Quality Assured goods and service to meet all customer specified needs and expectations, and all associated regulatory requirements. This is accomplished by holding regular meetings and setting objectives and targets for continual improvement in performance and resources in order to meet current and future customer and regulatory demands.

To ensure consistent performance to the specified requirements the Company implements an effective Quality System meeting the requirements of :-

BS EN ISO 9001 : 2008

The Quality System and general organisation is described in the Quality Policy Manual.

Detailed working instructions to Company employed personnel are contained in a separate series of Quality Control Procedures which are referred to in the Quality Policy Manual.

The Quality Programme laid down in the Quality Policy Manual and associated Quality Control Procedures has the full support of Management and it is a mandatory requirement that all personnel involved will comply with the defined policies, systems, and procedures. It is the responsibility of Company management, that all Company personnel thoroughly understand the Company's Quality Policy, and the requirements for implementation.
